AgrigateOne ESG & Compliance | BVPD Compliance & HR

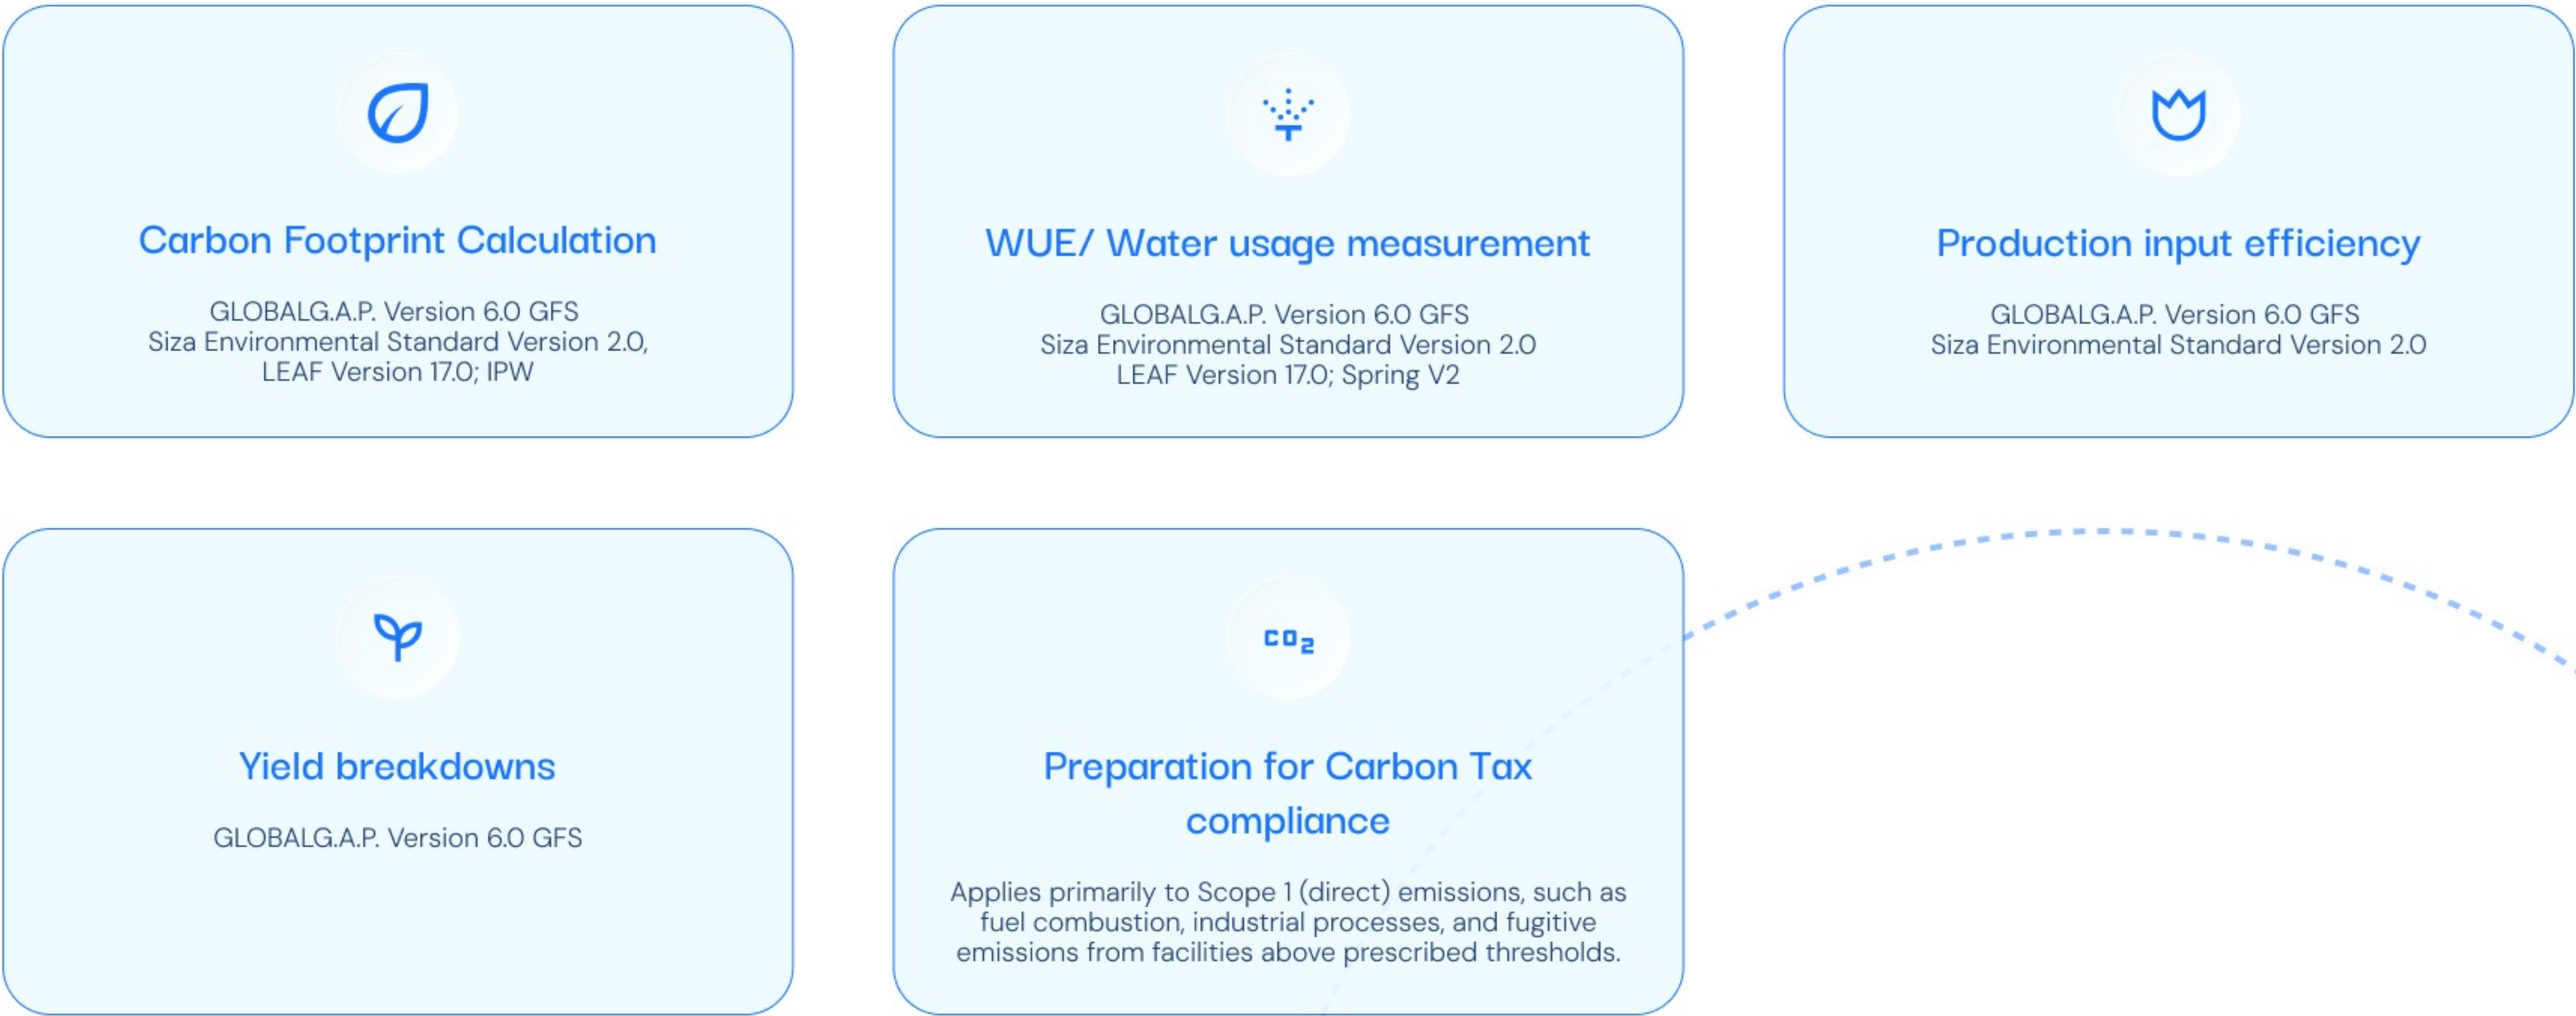

FRAMEWORK AND AUDIT REPORTING ALIGNMENT:

Easy, affordable compliance for audit requirements across multiple standards

Reporting Areas Required by Audit Standards

The standards shown in each section require reporting on the corresponding topic as part of the audit process. These reporting areas help demonstrate compliance through documented measurements, calculations, and supporting evidence.

Global markets are demanding greener practices,
we are here to make sure you're ready

REPORTING AT A FRACTION OF THE COST

The cost breakdown

BVPD Exclusive Costing

With our **per entity reporting price** model, save a **minimum of 18%** without the per – site fees typically charged. Unlock great value as your PUCs increase, including a packhouse.

One Reporting Entity, Multiple Sites, Greater Value.

Basic Reporting

*PRICE PER REPORTING ENTITY,

- A **Carbon Footprint report** will be provided within one month after data being submitted
- An **Additional Insights Report** will be provided which includes environmental audit data (water efficiency, crop protection spray breakdown, fertilizer, fuel & energy usage etc.).
- Data to be **consolidated** for all PUCs and reporting to take place at entity level. PHC included within cost, if applicable.
- **Data submission** to SIZATrack360 if required directly from AG1 system to SIZA (KPIs)
- **Data pull** from SIZATrack360 if capturing data on the platform already
- **Automated data review**, system flags outliers for further checking, including spray breakdowns and fertiliser ratios
- No additional fees for report corrections within the same cycle
- Excel templates for farm and packhouse with completion guidance

R3 100 per reporting entity

*COVERS REPORTING UP TO 4 PUCS

Comprehensive Reporting

*INCLUDES THE BASIC REPORTING OFFERINGS

- Access to compliance documentation warehouse management system
- **Reporting by PUC** with entity-level consolidation and roll up for group reporting
- **Automatic integration** of SIZA Social SAQ data into the platform
- Granular **orchard-level reporting** for management insights and record keeping
- **Interactive dashboards** on the AG1 platform for tracking and monitoring
- **Heat-map visualisation** identifies Scope 1, 2 & 3 improvement areas
- Baseline and benchmarking metrics support continuous improvement
- Data provision to international clients as per request

Starting at R10 000 per entity

*COMPULSORY FOR 5+ PUCS
